

228 Center Console

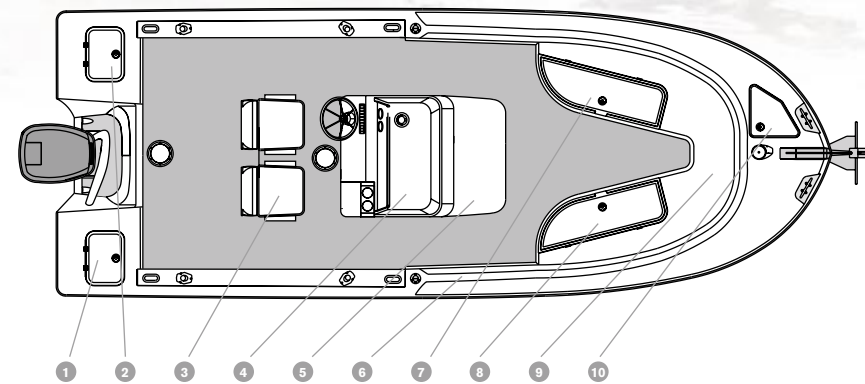

It is quite possible that the new 228CC represents the best example of EdgeWater's dedication to intelligently designing our boats. Engineered specifically for the rigors of bluewater fishing, the 228CC features closed-cell foam flotation and PermaGrid® construction with a high freeboard, deep-V hull to tame even the most unruly seas. With an 84 sq. ft. self-bailing cockpit, insulated fishbox, livewell and casting deck, there isn't a species on any coast that's safe. Lots of bow storage and a large console compartment with a portable head also means that long days on the water will be comfortable for the entire crew in this 22-footer that feels and rides like any other 24. It's a small boat that can take on big seas and big fish capably.

SPECIFICATIONS

Length	22' 6"/6.9m
Beam	8' 6"/2.6m
Draft (Boat Only)	17"/43cm
